**REVOLUTIONARY GREETINGS TO THE FDJ's  
OCTOBER 3, 2020, CAMPAIGN RALLY IN BERLIN  
(“30 YEARS ARE ENOUGH !  
ONWARD TO REVOLUTION AND SOCIALISM !)**

Dear comrades :

The **Partido Komunista ng Pilipinas (PKP-1930, the Philippine Communist Party)** has the pleasure to send its revolutionary greetings to the October 3, 2020, Campaign Rally in Berlin of the **FJD's** campaign : **“30 Years are Enough ! Onward to Revolution and Socialism”**.

Indeed, the 30 years of the temporary setback to socialism in Germany has shown that the annexation of the German Democratic Republic (GDR) by the revanchist German Reich only resulted in more unemployment, barbarism, hunger and want in Germany, as well as in other countries affected by German imperialism.

The imperialist annexation of the GDR in October 1990 was rooted on the rise of special agents of imperialism and other capitalist roaders who wormed their way to the top echelons of the Communist Party of the Soviet Union, with the aim of dismantling the USSR and the socialist community. October 1990 marked the liquidation by German imperialism of a socialist state on German soil --- the monopolies' plunder and destruction of the state sector of the economy in the former GDR, the planting of revisionist views and outright lies against the theory and practice of socialism, and the all-out humiliation of the Socialist Unity Party of Germany (SUPG/SED)'s political leadership.

October 1990 unfortunately saw the widespread bribery and brainwashing of the population of the former GDR, who were inveigled to forget the social protections of socialism, to accept the lies about the alleged “inefficiency” of a planned economy, and to surrender to

so-called "natural" developments in the return to capitalism — the return of unemployment and racism, the legalization of prostitution, the rise of neo-nazi and other revanchist groups, and the shameless revision of history to serve anti-Sovietism and anti-communism.

But the experiences of the past 30 years of counter-revolutionary "colour revolutions" in all the countries of the former socialist community has shown only one lesson — that a return to capitalism brings nothing to the peoples everywhere but chaos, exploitation, the return of ethnic or religious and other senseless conflicts, the sell-out to and dependency on imperialism, and to terror and persecution against communists and other workingclass advocates of socialism.

The shameful situation where the people of the whole of Germany have become complicit in the revanchist role in the imperialist wars against Yugoslavia, Afghanistan, Syria and Libya, and in the present war plans against Iran, Venezuela and other anti-imperialist countries, has been made possible only with the occupation and liquidation of the GDR.

We therefore salute your call for the unification of the revolutionary working youth in the struggle for the socialist alternative, to fight against the Greater German Reich, and to overthrow German imperialism. We are happy to note that this struggle for socialism of the revolutionary youth of Germany is being led by the **FDJ**, which has a proud history of struggle against Hitlerite fascism, and which produced many brave heroes and martyrs during the grim years of nazi rule.

We wish every success to your rally in Berlin this October 3, as your campaign reaches its first year's culmination. Further, we wish greater strength to the **FDJ** in your continuing struggle : **Onward Ever for Revolution and Socialism !**

With communist greetings,

**ANTONIO E. PARIS**  
General Secretary
